PROFESSIONAL SUMMARY

IT Recruiter with 2.5+ years of experience in full-cycle technical recruitment, talent sourcing, and working closely with hiring managers across complex engineering roles. Experienced in managing multiple hiring processes at once, supporting candidates through hiring and onboarding, building talent pipelines, using market data to support hiring decisions, and improving recruitment processes through data-driven approaches.

- Contributed to 120+ hires annually with 90%+ hiring plan completion.
- Reduced Time-to-Fill by 25%, from 45 to 33 days, by building targeted talent pipelines.
- Increased funnel conversion by 20% by improving sourcing and screening processes.
- Managed recruitment across 50+ concurrent technical vacancies and worked with 15+ hiring managers.

WORK EXPERIENCE

Lead Technical Recruiter / Recruitment Team Lead | Andersen | Mar 2025 - May 2026

Stakeholder Partnership & Recruitment

- Advised 15+ hiring managers on talent market trends, salary benchmarks, and hiring feasibility, helping reduce decision-making time by approximately 20%.
- Led intake sessions and refined Ideal Candidate Profiles, reducing misalignment and rework during the hiring process.

Full-Cycle Technical Recruitment

- Managed end-to-end recruitment for 50+ concurrent technical roles, achieving 90%+ hiring plan completion.
- Managed the hiring process from intake through offer acceptance, ensuring SLA adherence across roles.

Market Intelligence & Recruitment Analytics

- Analyzed talent markets and supply-and-demand data to improve hiring approaches for hard-to-fill roles.
- Built recruitment analytics dashboards to improve visibility and hiring predictability.

Recruitment Process Optimization

- Built targeted talent pipelines, reducing Time-to-Fill by 25%, from 45 to 33 days.
- Improved funnel conversion by 20% by refining sourcing and screening processes.
- Reduced low-value sourcing activity by 15% by introducing a vacancy prioritization approach.

Technical Recruiter | Aston | Oct 2023 - Mar 2025

Full-Cycle Recruitment

- Managed full-cycle recruitment for senior and architect-level roles across Java, .NET, DevOps, and Data.
- Filled 15+ complex roles per quarter with a 92% offer acceptance rate.

Market Intelligence & Analytics

- Conducted salary research and market mapping to improve offer competitiveness and reduce offer declines.

- Built a reporting system for hiring managers, reducing intake-to-hire alignment time by 20%.

Quality, Onboarding & Candidate Support

- Introduced structured screening, contributing to a 95% probation success rate.
- Kept in touch with new hires during their onboarding, collected feedback, and worked with HR, HRBP, and hiring managers to resolve issues and support a smooth transition into the role.

Technical Sourcing

- Built a pipeline of 2,000+ niche candidates, reducing time-to-hire by approximately 10 days.

Corporate Recruiter | Status | Jul 2019 - Sep 2020

- Delivered 40+ hires monthly, exceeding recruitment targets by 110%.
- Screened 50+ applicants daily through structured recruitment pipelines.
- Reduced candidate drop-off by 15% through more consistent candidate communication and engagement.
- Maintained a 90%+ probation success rate across placements.
